Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

none of the prior art of record discloses or suggests a method comprising steps a-c as claimed with the understanding that "detecting the presence of vasoconstriction in said mammal" means by use of a detection device, including but not limited to a thermosensor, pressure sensor, etc.

An earlier patent issued to Grahn (5,683,438) presents the method steps claimed except for detecting the presence of vasoconstriction in said mammal by use of a detection device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
